The first part of the paper discusses the importance of the research and the objectives of the study. It then presents a literature review of the existing research on the topic. The second part of the paper describes the methodology used in the study, including the data sources and the statistical methods employed. The results of the study are then presented, followed by a discussion of the findings and their implications. The paper concludes with a summary of the main points and suggestions for future research.

The research was conducted using a combination of primary and secondary data. Primary data was collected through a series of interviews with experts in the field, while secondary data was obtained from a review of the literature. The data was then analyzed using a range of statistical techniques, including regression analysis and factor analysis. The results of the study indicate that there is a significant relationship between the variables studied, and that the findings have important implications for the field.

The findings of the study suggest that there is a need for further research in this area, and that the results have important implications for policy and practice. The paper concludes by summarizing the main points of the study and suggesting areas for future research.

Mr. David Pugh
Mr. D. Norman Stalker
Advisers

Earliest man sought shelter from the elements and his enemies. He needed protection from the immediate dangers that threatened his survival. He constructed an enclosure which served to keep out his enemies, and a roof, to protect him from the unpredictable elements. But this building could do him no good unless he had some way to keep the inside in and the outside out. For this purpose the door was invented.

A door, a movable barrier used to close or open a passage into an enclosure, usually has a lock. The purpose of the lock is to prevent a door from opening, in order to protect what is inside or to keep it concealed; however, a lock can be useful only when you have a key. The key to a door's lock is most important to a person seeking the contents of the room or the passageway beyond the barrier. But sometimes a door and a key must be used symbolically to open the way to intangible things.

There are many people here at DeVilbiss who help to open the doors to learning and opportunity. For each new yearbook staff, the man with the keys is D. Norman Stalker, who has advised the Pot O' Gold since its beginning. For his contributions as a journalism adviser, Mr. Stalker was awarded the Gold Key, its honorary token, by the Columbia Scholastic Press Association. This Gold Key is sym-

bolic of his abilities, as he is an example of those who are willing to unlock the door for others.

We use the door as our theme symbol because so much can be found beyond the threshold of a door. When we pass through the doorways to our homes, we find warmth and love waiting inside. When we open the doors of our cars, we find transportation to places of varied interest and adventure. When we enter our houses of worship, we pass through doors that lead us to sanctuary and spiritual satisfaction. When we open the doors to a school, we find across its threshold a new world of learning.

There are two-hundred fifty-four doors in DeVilbiss High School—you can count them on the floor plan inside the cover. All the classroom doors were taken down and reconditioned this year, that they might do service

for new thousands of students. Other doors, those to the outside, were blocked temporarily as plasterers used their hallways to hold sand and other supplies. Most swung open regularly, sending performers onto the stage, or the basketball team up to another victory, or, every day, Tads in to lunch.

As we seek our education, a type of shelter, we find that there are many challenging doors to pass through. However easy it may be to enter the first small door as freshmen, we find many larger ones on the way; ones which are harder to open, whose keys we must dis-

cover. As we leave the last door as seniors we look back and see those we have opened; we look forward, with anticipation, to the closed ones ahead, for now we possess the secret to help us find the keys.

Students cannot obtain an education by peeking through a keyhole, for the view of knowledge from outside is limited. The keys are there for the taking and will unlock vistas of learning. Beyond the turn of each knob, beyond the first step, across every new threshold, is the education that DeVilbiss offers its students.

"The doors of wisdom
are never shut."

—Benjamin Franklin

(From a plaque, in Room 122, presented to DeVilbiss by the Curtis Publishing Company, for Outstanding Accomplishment 1950-1951)

Administration and Faculty

MR. PHILO C. DUNSMORE
Superintendent—Toledo Public Schools

A locked door can be opened by only a key; this key must be unique, for each door is different. The key to the door of learning at DeVilbiss High School is held by the administrative leaders and faculty. These people, with their experience and knowledge, give us the incentive and foster our ability to pass through this important portal in our lives.

A future chemist or engineer may be prepared for his role by the science and mathematics departments. A career or a hobby in music may be encouraged by participation in the band, orchestra, or chorus.

If DeVilbiss has given its students the proper keys, they can open these doors, and others.

Mr. Irvin Conrad, Principal of DeVilbiss High School, briefs a new teacher on procedure.

I am especially pleased to have this opportunity to say a word to our 1964 DeVilbiss High School graduates.

During the past four years we have attempted to provide for you a school program which would allow you to be prepared for college or for a career immediately following high school. Not all of you, of course, have taken full advantage of this opportunity. However, many of you have done remarkably well and all of you have completed, at least, the minimum requirements for graduation.

I wish for all of you success and happiness in the years ahead. If we can be of any assistance to you, we will be most happy to do so.

*... This land will reap from seeds
Of love and loyalty
Planted in its youth,
And they will walk tonight and all tomorrows
Heads high, vision clear—
Take with them and for always
The infinitesimal, the near incredible
Planting that will enrich the earth
Whose purpose is beyond the here.
For this was she born—
And we, her colleagues, grasp hands.
We are expendable—
For what is left is greater
Than ourselves.*

STUDENT COUNCIL

To bring a foreign exchange student to DeVilbiss has been the aim of the student body. An active participant in achieving this goal has been the 1964 Student Council led by John Gilbert, the student-elected president. In addition to working for the accomplishment of this

main objective, the commissioners and their commission members have also pursued their respective jobs. Under the guidance of the Social Service commission, which is responsible for the exchange student project, the Council held the first Inter-club Carnival. Some of the proceeds from the magazine drive went to the fund, as well as earnings from weekly "brownie" sales.

The DeVilbiss Student Council has actively

participated in Toledo Area Student Council activities. The Publicity commission was in charge of publicity for the TASC Dance, while the Finance commission handled the Queen's tea. DeVilbiss's support for this dance was demonstrated by our selling the most bids. Also, TADS supported the Area Hootenanny with more students in attendance than from any other school.

NATIONAL HONOR SOCIETY

This year the National Honor Society was organized into what will be an active organization. Officers were chosen from the sixty-two members. These include president, Carol Horwitz; vice-president, Tom Kozak; secretary, Carol Lukert; treasurer, Steve Jenkins; and historian, Janet Hart. Many activities were discussed but the main efforts of this year's membership was to write a constitution and have it ratified. The top ten percent of the class are inducted as juniors. These members then lend their services in the graduation ceremonies of the senior class. The next five percent of the class are selected to complete the membership quota in the beginning of their senior year. The students are recommended to the Society on the basis of

scholarship, character, service, citizenship, leadership, and faculty approval. This is a nationwide organization.

To further scholarship, DeVilbiss offers advanced placement work for which students may receive college credit. These courses are offered in English, Chemistry, European History, and Spanish. Also, for the underclassmen, honors classes are offered in English and mathematics.

Quill and Scroll International Journalism Honor Society is an honorary organization which includes those seniors who have been nominated by the advisors of the publications department. All of Quill and Scroll's members have worked on either the yearbook or newspaper staffs.

ORCHESTRA

Mr. Jack Perrine's second year with the De-Vilbiss orchestra has consisted mainly of a re-organization effort. The orchestra participated in varied activities aside from this main goal. In October the orchestra's strings entertained at a meeting of the Band-Orchestra Parents' Club. At a matinee for the student body in March, the full band and orchestra gave a preview of their annual Spring Concert. Members of the orchestra have entered competition at various contests. Some went to Bryan, Ohio, and participated in the regional orchestra composed of the best instrumentalists in the Ohio district #1. From these participants, some made the even more select All-State Orchestra which was assembled in Dayton. The final event of the year was the concert with the band at the closing meeting of the PTA in May.

Under the direction of Mr. J. Phillip Zaugg, the A Cappella Choir has had a very successful year serving the school and the community. The annual Midwinter and Spring concerts were held this year in February and May. The Choir also sang for the Freshmen Mothers' Tea in November. Upon request, they sang for the West Toledo Kiwanis Club Valentine Dinner. The Choir blended their voices with many other fine city choirs at the Annual Choral Festival which was held at the Peristyle in the spring. In December they entertained at the Faculty Christmas Party, and a choral group sang for Baccalaureate in June. All of these programs are fine examples of the excellence of the DeVilbiss A Cappella Choir and their director, Mr. Zaugg, who has been with the DeVilbiss Choir for 20 years.

Daryl Millman, editor of The Prism, proof-reads one of the articles which will appear in next week's paper.

Mr. John Campbell is adviser of the business staff of The Prism.

Members of The Prism staff consult with the editor to complete editorials, articles, and layouts. After their four-page make-ups are finished, copy is sent to the printer.

The staff work to meet a deadline for their bi-monthly edition.

THE PRISM — BREAKS SCHOOL LIFE INTO COLORFUL NEWS

Miss Rose Bloom advises the staff of the school newspaper on the literary requirements of a publication.

The Prism, besides keeping its usual high quality, has added many new features this year. Its staff members have encouraged "Letters to the Editor", and the response from the student body showed interest and concern. They have revived the "Prismatics" feature, which tells not-often-heard incidents about school.

Last year a college column was used, telling about the universities themselves; this year **The Prism** staff has told about the representatives who come to give Tads information about their schools. Another "first" was a female sports

editor. Even though there are no permanent positions on the literary staff, it was found that girls are just as good as boys, even at sports writing.

When stories of importance have arisen after the current issue has gone to press, the staff tries to meet these emergencies to give its reading public all the up-to-date news of DeVilbiss. Tads are not the only ones who recognize the excellence of our newspaper. At the March Conference of the Columbia Scholastic Press Association, **The Prism** received a first-place rating.

DEVILTRIES Presents

"THE X-13 CAPER (or THINK FINK)"

Once again, the student-run and student-produced DeViltries succeeded in creating another fine presentation. This year's DeViltries, "The X-13 Caper (or Think Fink)", was the result of the combined efforts of hundreds of spirited students.

The setting for the show was a small tourist town in Mexico. This setting proved to be the focal point for complications which were to develop into one of the most bizarre stories in the annals of international espionage. It all started when an American tourist, Alfred Fink, unknowingly came into possession of secret documents which were

vital to our national defense. This Fink soon was sought after by the intelligence agencies of the well known "good guys and bad guys". On the one side was the distinguished and scholarly Horace Rudolph with his prankish sidekick "Buggy", and opposing them was the threesome of Gaspard, Irving, and Pedro Perplotchik.

These two forces met face to face on numerous occasions. One of these clashes developed into a pie throwing brawl which led to their eventual confinement in the local calaboose.

As the show draws to a close, some of the principal characters are disposed of, and the documents are left in the hands of Fink and Buggy. These two prove to be visitors from outer space and they proceed back to their homeland with the secret documents.

TADS OPEN DOORS TO SERVICE THROUGH SPECIAL INTEREST

Organizations

CLUBS . . . DOORS TO WIDENING FRIENDSHIPS

Efficiency and co-operation among our clubs are promoted by the Club Presidents' Council. Consisting of the presidents of each of DeVilbiss' forty-two clubs, the C.P.C. coordinates the activities of all school clubs, aids them in achieving their various purposes, and acts as a clearing house for all club affairs. This year the C.P.C. has sponsored such activities as the Inter-club Carnival, the annual Christmas window contest, Thanksgiving and Christmas baskets, and has also helped with the March of Dimes Drive. As in the past, Club Presidents' Council has made strides toward the goal of greater and more improved student participation in the school and community activities.

Along with the C.P.C., Jackie LeVine and her Organizations Commission have faithfully supervised the interests of each club. They have worked individually with each type of club—both special interest and social-service throughout the year. The main interest of the social-service clubs has been to promote service to their school, in their community, and for their fellow man. The special-interest clubs have dealt specifically with one field of interest, with the various fields ranging from music and drama to science and nature. Though the purposes of these two types of clubs may overlap, both help to make their members well-rounded.

Their main project of the year is the Roman Banquet, headed by Mrs. Boerner, Mrs. Berger, and Mrs. Selter, their adviser. The participants dress in true Roman style, dine in an authentic atmosphere, sing Latin songs, and are entertained by their fellow Latin students. A Halloween party; a Saturnalia, the Roman Christmas celebration; and an annual May picnic complete this year's projects.

Their one big social project of the year is the Christmas dance, held this year at the Continental Inn. This year, Sisco has conducted such service projects as donating toys and games to orphanages, cleaning the trophy cases once a month, and sending old Christmas cards to charitable organizations. FUTURE TEACHERS

Future Teachers, organized in 1947, acquaints young people with the teaching profession and aids in preparing them for their future careers. Their main activity is participation in the Metropolitan Future Teachers, composed of twenty area schools. During the year they collected soap, toothpaste, magazines and jewelry for the State Hospital patients.

ROCKET SOCIETY

The Rocket Society's main project of the year was the construction of a one-stage, or one-motor, rocket. It is composed of steel tubing and runs on solid fuel, which consists of zinc and sulphur, as opposed to liquid fuel, which is used by the United States' rockets. First, the rocket was static tested, or fired on the ground, to predict its actions in flight; then it will be live tested, or fired into the air.

During the school year, the twenty-nine members, besides bowling twice a month, have taken toys and refreshments to the Miami Children's Home. For a social activity, Kiowa held a hayride in November at Bancroft Barns.

FOOTBALL 1963

The Tiger football team met west-side rival Start in its first competition of 1963, at the premiere. Two quarters of action left the scoreboard without a winner. In the Steubenville game, Bob Wert ran 69 yards with a pass from center for DeVilbiss's first touchdown of the season. The Bengals opened play in the expanded City League by battling Libbey. This was the first time in school history this traditional game had not been played on Thanksgiving Day. Charles MacHalla blocked a punt and Ron Adams recovered for the score. After losses to Rogers and St. Francis, DeVilbiss, paced by John Ulmer's scoring punch, made its early lead over Central stand up with strong defense.

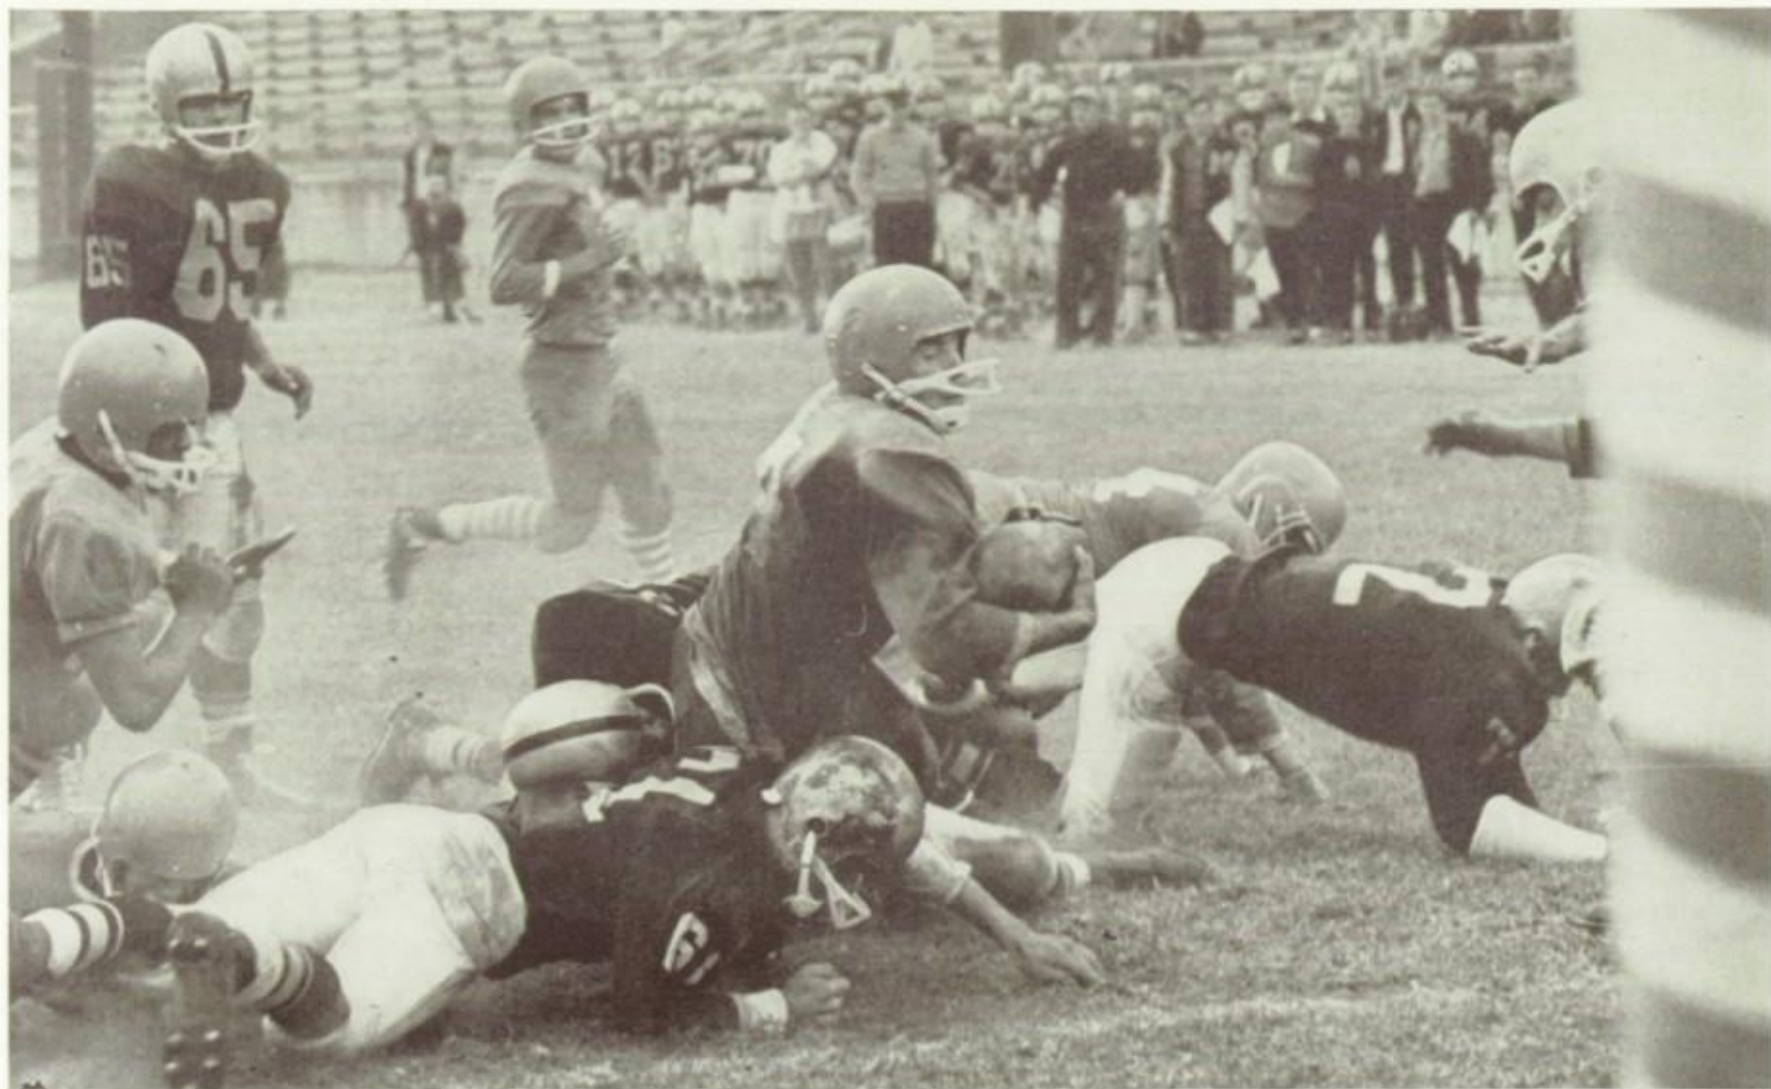

The team kept up this momentum with a decisive win over Macomber, and lost by only two points to eventual city-champion Waite. Fifth ranked in the state, Roger Bacon halted the Bengal success at Cincinnati, but DeVilbiss came back to inaugurate its rivalry with Bowsher by routing the Rebels. Jim Holtcamp led the charge with two long-gaining scores. Henry Coombs and Jim Rutledge

were named co-captains for the year by their teammates before the Woodward game, in which Joe Cothorn made the lone Tiger tally.

Although DeVilbiss' 3-4 City League record was good for only fourth place, the young Tigers accomplished this with just one returning letterman from 1962. Next fall's varsity will have twenty seniors who have won their stripes this season, and a team which learned to fight early will be ready for a championship.

Jay Rubenstein received top honors for DeVilbiss through his appointment to the number-one all-city squad. Co-captain Jim Rutledge and Curt Ragland were chosen to represent DeVilbiss on the second team.

This year, because of violence during or after several night games, a city-wide ban on night football was imposed. There were no disturbances at Page Stadium this season, and although the introduction of Saturday football disappointed many people, it didn't hinder the good sportsmanship of the team or the spectators.

John Ulmer fights across the goal for a score against Macomber.

Ron Adams sweeps right end behind the escort of Jay Rubenstein and Gordon Hunt while Mike Muhn fakes toward the other sideline.

VARSITY BASKETBALL 1963-64

The DeVilbiss varsity basketball squad, led by the coaching of Mr. Phil Kahler, went from a second-place tie in the city league to capture the Toledo District Championship. The maturing Tigers survived in the Class AA tournament longer than any City League or area team.

Opening the 1963-64 season, the Tigers lost a hard-fought battle to the Macmen. Then the Kahlermen rallied to take their first game from Elyria. Center Dave McClellan led the Bengals on to wins over Start and Bowsher, and a thrilling game with St. Francis. Libbey triumphed as the buzzer sounded, in a contest that was good tournament training. Using the additional height of Conrad Lippincott, the cagers trounced Scott.

Even with the combined efforts of Clyde

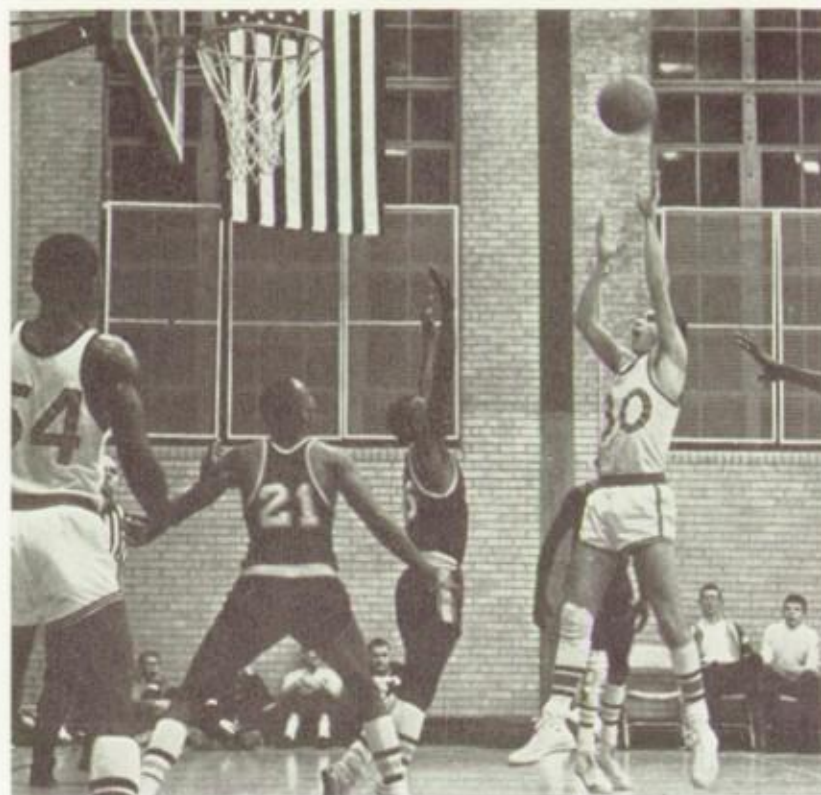

Lykins and Mike Eastop, DeVilbiss was unable to score the final basket against Woodward. The Tigers again were defeated by only two points when the game with Waite ran into overtime. Dayton Roosevelt, with its full-court press, delivered the team one of its hardest losses. Bouncing back, as a great ball team is expected to do, the Tigers devoured Central for the first time in several years.

Tom Creekmore helped the improved defense of the Tigers as they returned a loss to Macomber. Geoff Zahn assisted as DeVilbiss avenged its defeat by Libbey. With better than average shooting, the Tigers walked off with an easy victory over the then-state-ranked Lima Senior. In the final city-league game, the Kahlermen were victors again over Bowsher.

(in four overtimes)			

Tournament play is over, but the mighty Tigers can look back on a season filled with much success. In the first game of the Tourney, DeVilbiss shot 55% from the field to triumph over Clay. In their third meeting of the year, with everything at stake, the Tigers displaced St. Francis. They rolled by Fostoria to win the Sectional trophy.

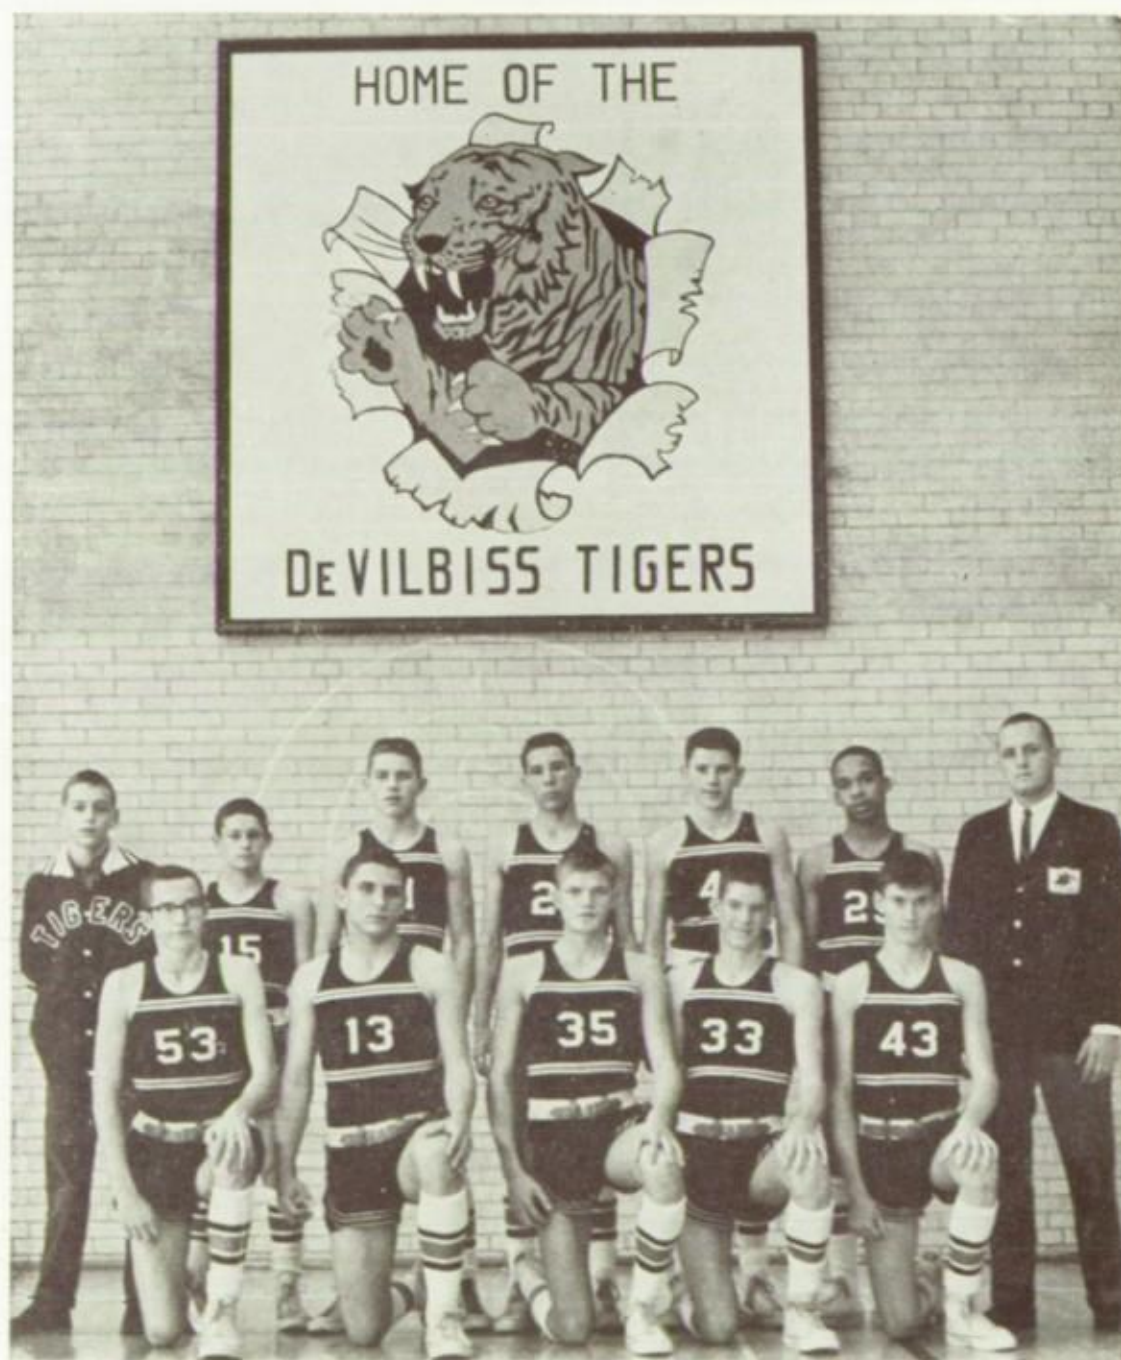

For the first time in twenty-five years, the Bengals obtained the District Championship. An almost too-close game saw the Tigers edge speedy Rogers by one point. Greater height and offensive balance than Fremont Ross gave

DeVilbiss the title.

Throughout the year, the Tiger starters, George Clay, and the other reserves exhibited their skill in shooting. Much to the dismay of an aroused caravan of Tads, this was not enough to throw Elyria in the first Regional game. With a tie score at the end of regulation time, the two teams battled until the end of a fourth overtime, when Elyria's smallest player made a last-moment basket.

High-scoring Dave McClellan honored DeVilbiss by being chosen to represent the Tigers on the All-City and All-District teams.

You Can't Go Wrong...

Nobody should ever consider his education complete. You can't go wrong by getting as much schooling as possible. So strongly does Toledo Edison feel about this that we finance three scholarships a year at the University of Toledo.

Lots of college graduates find Toledo Edison a good place to work. Investor-owned electric companies offer interesting careers in many fields. You might want to look into this.

**Libbey's
famous
"Safedge"
Guarantee**

... first made in 1924

In 1924 Libbey—a division of Owens-Illinois—perfected a unique fire process for safeguarding the rims of fine glassware.

They called this glassware "Safedge"—and to prove the process was as good as claimed, they backed it with the most dramatic guarantee in glass history:

"If any 'Safedge' glass becomes chipped on the rim, from any cause whatsoever, it will be replaced free of cost." This offer, of course, still stands.

Today, Libbey "Everyday Crystal" with the famous "Safedge" guarantee graces even the finest tables, yet sells at low prices.

LIBBEY-OWENS-FORD

a Great Name in Glass
TOLEDO 2, OHIO

What a wonderful Open World

Have you noticed schools like this on your travels? Probably, because new buildings are springing up everywhere. They are beautiful and functional structures with large glass areas to create an "open-world" atmosphere to eliminate the feeling of being boxed in.

Wherever you live, work, shop or travel, you'll find L-O-F Glass making it more enjoyable. In homes, motels, schools and stores. In offices and factories. In hospitals and churches. In cars, buses, trains and planes.

There's an L-O-F Glass that insulates windows. It's called *Thermopane*® insulating glass. Another subdues sun heat and glare. L-O-F Glass that makes automobiles safer. L-O-F Glass to do a thousand things.

And when anyone needs glass, there's an authority on it nearby—your local independent L-O-F Glass Distributor or Dealer. His name is in the telephone book Yellow Pages under "Glass". Call him.

Laboratories, shops and studyrooms are separated from twin classroom buildings by a broad, central court, Ithaca Senior High School, Ithaca, N.Y. Architects: Perkins & Will, White Plains, N.Y.

The first part of the paper discusses the importance of understanding the cultural context of the research. It highlights the need for researchers to be sensitive to the values and beliefs of the communities they are studying. This is particularly important in the field of education, where cultural differences can significantly impact learning outcomes. The author argues that a one-size-fits-all approach to education is not only ineffective but also disrespectful to the diverse cultures of our world.

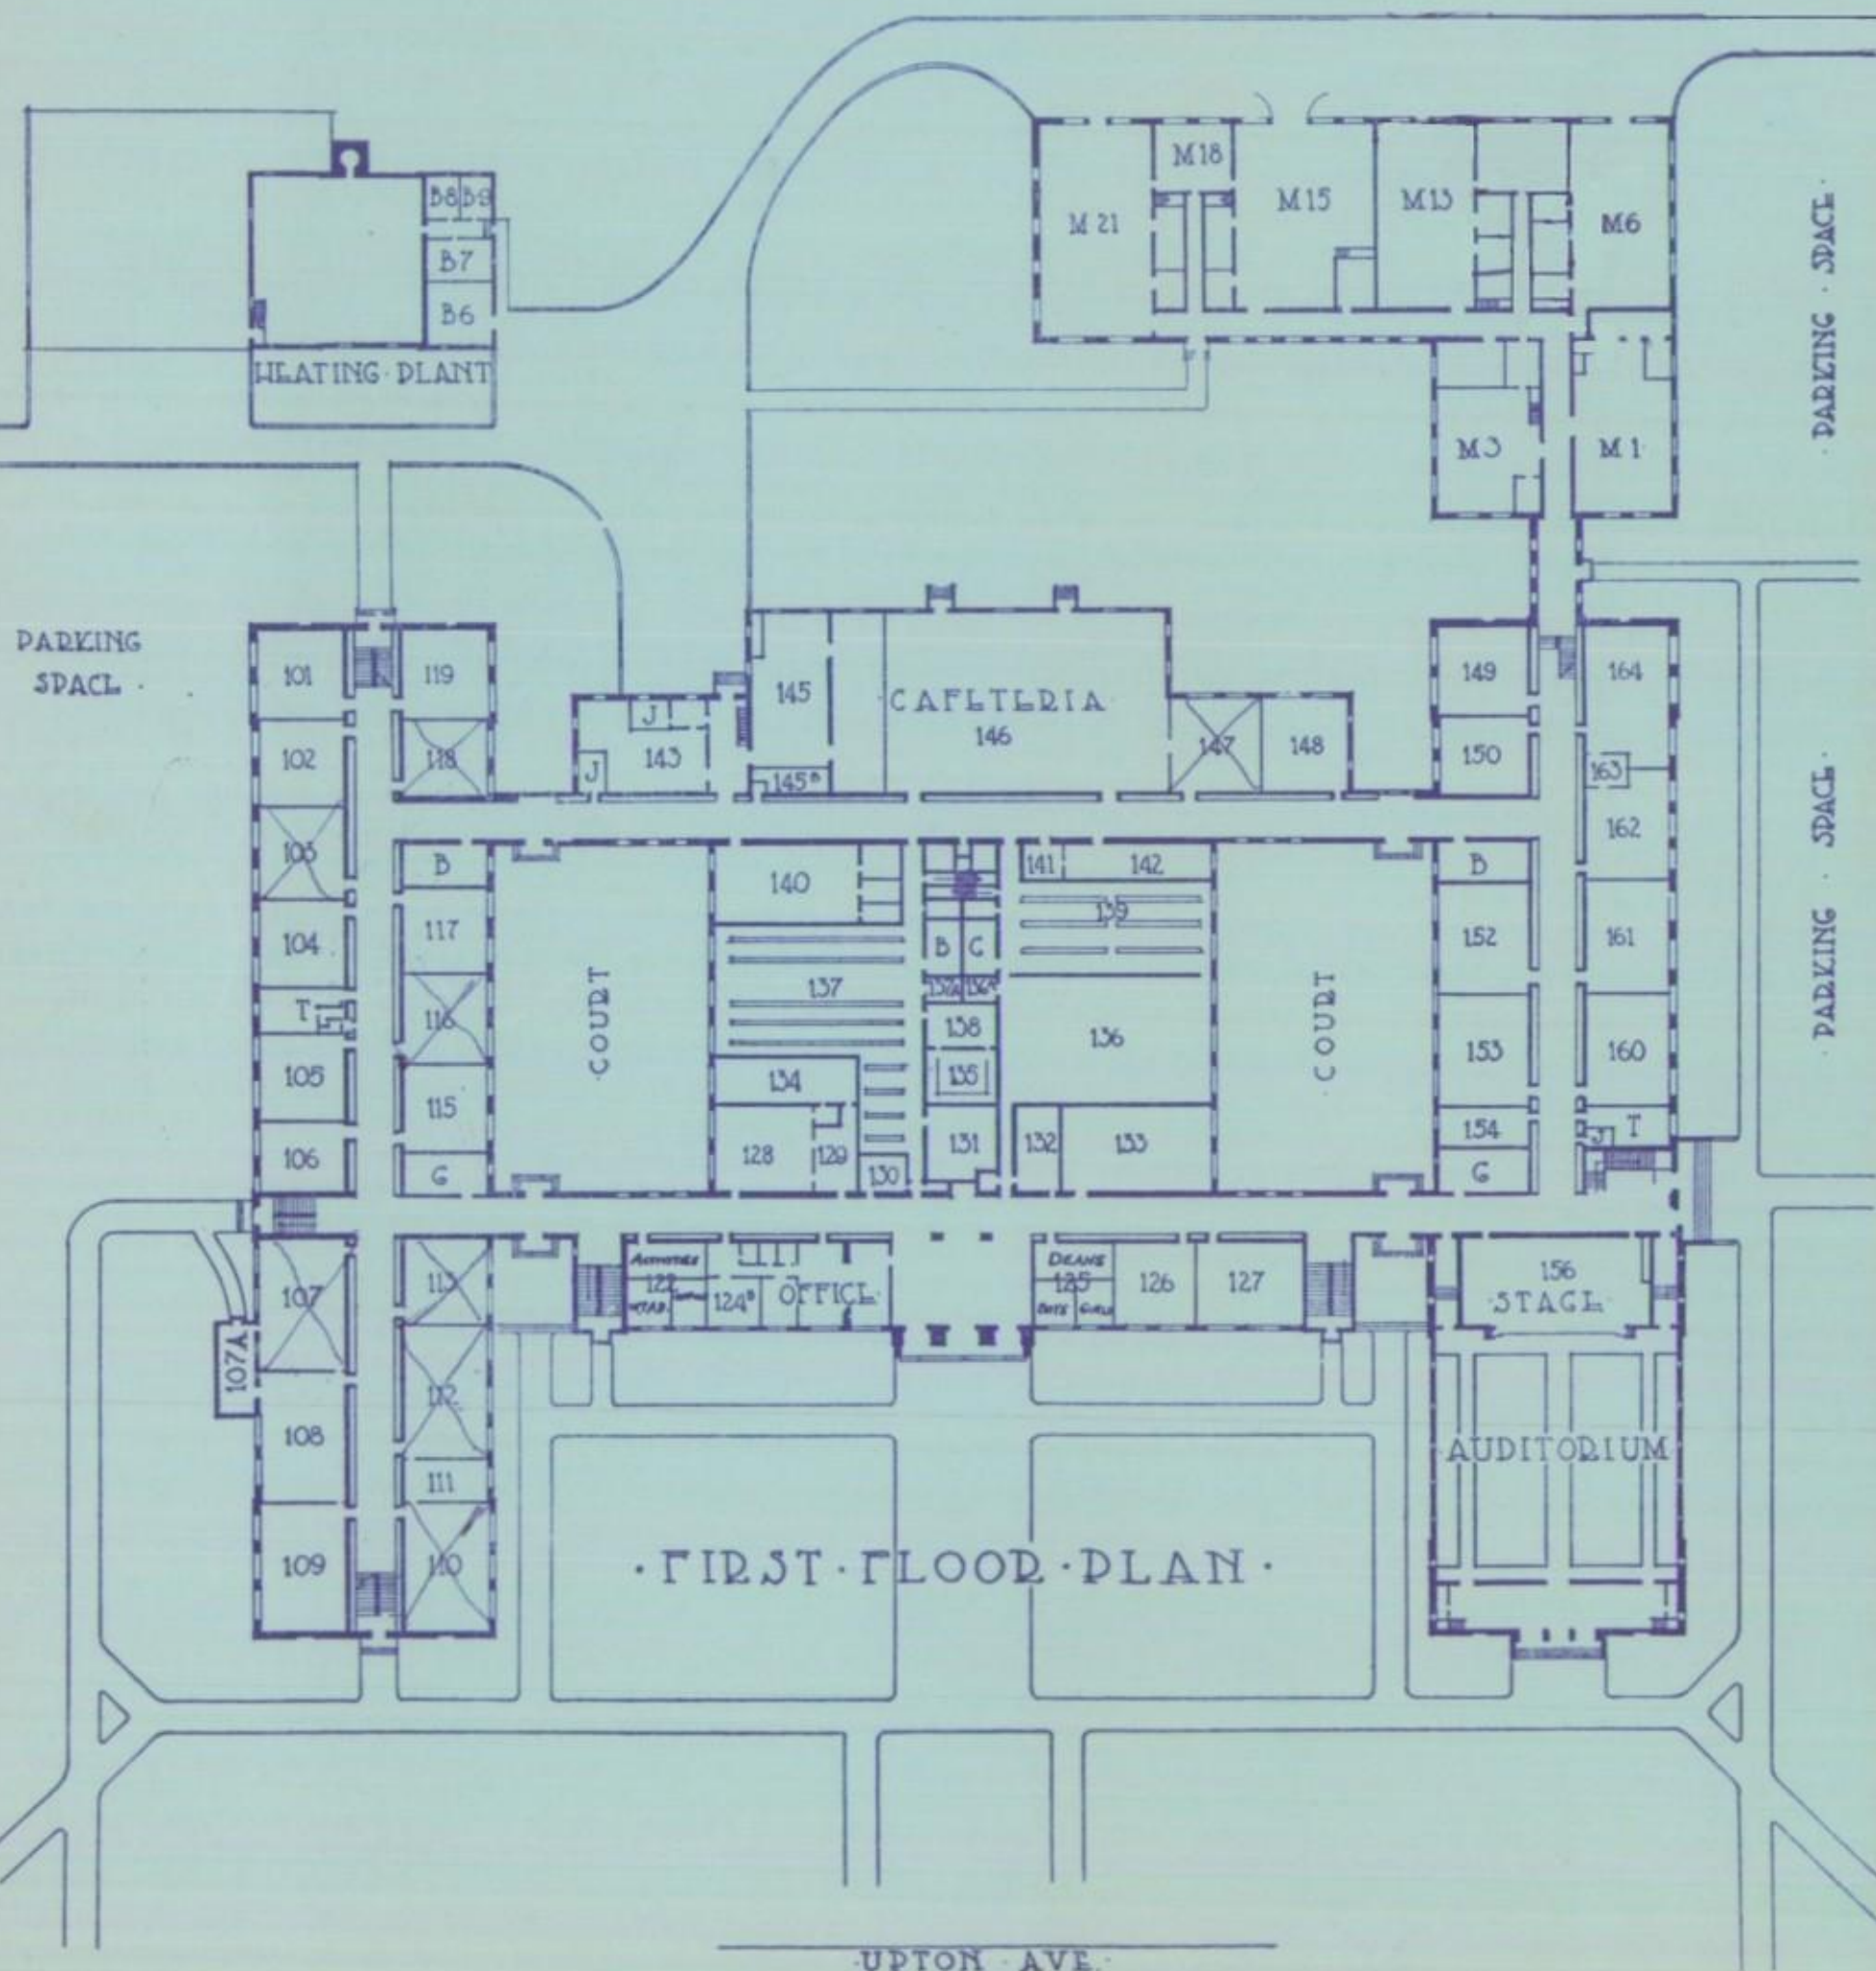

In the second part, the author explores the challenges of conducting research in non-Western contexts. One major challenge is the lack of standardized methodologies. What works in one culture may not work in another, making it difficult to compare results across studies. Additionally, there is often a power imbalance between the researcher and the community, which can lead to biased or exploitative research practices. The author suggests that researchers should adopt a more collaborative approach, involving community members in the research process from the beginning to the end.

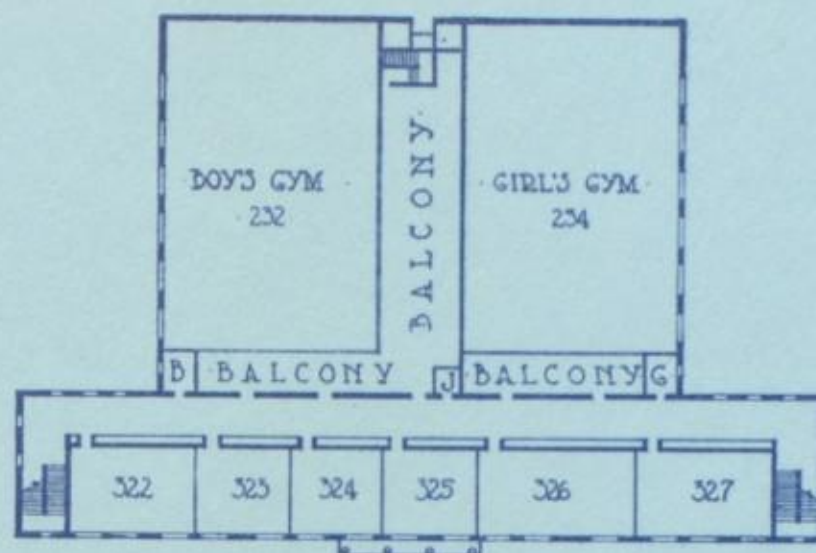

The third part of the paper focuses on the role of education in promoting cultural understanding and respect. The author argues that schools should not only teach academic skills but also provide a space for students to learn about and appreciate different cultures. This can be achieved through a variety of methods, including multicultural curricula, language instruction, and cultural exchange programs. The author emphasizes that education has the potential to break down barriers and foster a more inclusive and harmonious society.

In conclusion, the paper calls for a more holistic and culturally sensitive approach to research and education. It urges researchers and educators to recognize the value of diverse perspectives and to work together to create a more equitable and culturally rich world. The author believes that by doing so, we can better understand ourselves and the world around us, and ultimately, we can build a more just and peaceful future.
